

RJMP ANNOUNCEMENT

AN INTERNATIONAL CONTEST FOR VALIDATION OF "G-D'S PHYSICS UNCIARE-JRH" CRITICAL PREDICTION & RESOLUTION OF THE "HUBBLE'S TENSION" ENIGMA!

Background & Significance:

RJMP recognizes Dr. Bentovish's (Bentwich) "G-D'S Physics" as the New Twenty-First Century Physics' Scientific Paradigm, i.e., with over 120 published (peer-reviewed) scientific articles, and RJMP's (own) recently published "Special Issue" dedicated to "G-D's Physics New Twenty-First Century Physics Scientific Paradigm", which also included two direct empirical validation of two of "G-D's Physics" (unique) "Critical Predictions" – as more valid than the corresponding predictions of both General Relativity Theory [GRT] and Quantum Mechanics [QM]! In addition, "G-D's Physics New Scientific Paradigm offers a unique resolution of the current (otherwise "unexplained") "Hubble's Tension" Enigma – based on "G-D's Physics" discovery of a singular (higher-ordered) "Universal Computational/Consciousness Principle" (UCP) which (simultaneously) computes all exhaustive spatial pixels comprising the entire physical universe at the incredible rate of $c^2/h = 1.36^{50} \text{ sec}(!)$ thereby allowing this singular UCP to produce an extremely rapid series of "Universal Frames" of the entire whole universe! Based upon "G-D's Physics" (novel) "Collective Human Consciousness Focus" (CHCF) theoretical postulate which stipulates that whenever there exist such CHCF (of Millions of individual human-beings) on this singular UCP, then this brings about an increase in the UCP's rate of the universe's expansion! Hence, "G-D's Physics" predicts that during the (upcoming) "Jewish Rosh Hashanah's" (JRH, Oct. 3-4, 2024) two days' time-interval, there will be a "Minute Annual Increase" [MAI] in the universe's (current) rate of expansion (e.g., relative to the current precise measurement of the universe's expansion rate, see delineation in the "Measurement" section)! Indeed, an empirical validation of "G-D's Physics" (unique) "Universe's Non-Continuous Increase in its Accelerated Rate of Expansion" (UNCIARE) during the upcoming JRH (e.g., G-D's Physics' "UNCIARE-JRH" Critical Prediction) would resolve the "Hubble's Tension's" gap between the universe's early Cosmological ("Background Radiation") measurements, and current (increased) Astronomical measurement of the universe's expansion rate – due to a cumulative CHCF UNCIARE increase in the universe's rate of expansion! Needless to say, that "**RJMP's International Contest for Validation of 'G-D's Physics' 'UNCIARE-JRH' Critical Prediction & Resolution of the 'Hubble's Tension' Enigma**" may be regarded as equivalent to the "historic significance" of Eddington's empirical validation of Einstein's GRT's predicted "Mercury's double-valued perihelion curvature" Critical Prediction (during the famous 1919 Solar Eclipse)!

Measurements of G-D'S PHYSICS's UNCIARE-JRH Critical Prediction:

As delineated in RJMP's current publication of Dr. Bentovish's article entitled: "G-D's Physics Complete Unification of Quantum & Relativistic Models, Four Basic Physical Features & 'Hubble's Tension' Resolution!" [in RJMP's Regular current Issue: Vol. pp??*], the precise measurement of G-D's Physics' "UNCIARE-JRH" Critical Prediction" comprises: a (higher-precision*) Astronomical Measurement of the UNCIARE-JRH's Critical Prediction of an increase in the current Astronomical Value of the Universe's Expansion Rate, i.e., by a "Minute Annual Increase" (MAI) of 0.000968 km s⁻¹ Mpc that will occur in the upcoming JRH: Oct. 3rd-4th, 2024, relative to such MAI* (precision measurement sensitivity) of the current rate of the universe's expansion (and will carry through until the next JRH: Sep. 22nd-23rd, 2025 – in which another MAI of 0.000968 km s⁻¹ Mpc will be added to the universe's accelerated rate of expansion!

Submission deadline: Oct. 15th, 2024.

Publication of the Special Issue entitled: "Results of the RJMP's international Contest for Validation of "G-D's Physics" UNCIARE-JRH Critical Prediction" & 'Hubble's Tension' Resolution": November 15th, 2024.

RJMP will publish a Special Issue entitled: "Results of the RJMP's international Contest for Validation of "G-D's Physics" UNCIARE-JRH Critical Prediction & 'Hubble's Tension' Resolution" in which the results of the Five Winning Scientific Articles will be published that will offer the best empirical results for validation of "G-D's Physics" unique UNCIARE-JRH Critical Prediction- and its (potential) resolution of "Hubble's Tension". The selection of those Five Winning Articles will be carried out by the "RJMP's Scientific Contest Committee", headed by Dr. Jehonathan Bentovish (Bentwich), who is the Father of this New "G-D's Physics" Scientific Paradigm for Twenty-First Century Physics.

Submissions (& Queries): for the "RJMP's International Contest for Validation of "G-D's Physics" UNCIARE-JRH Critical Prediction" & Resolution of "Hubble's Tension" Enigma": should be emailed directly to drbentwich@gmail.com
